November 1, 2021

Dear Pensioner or Beneficiary/Surviving Spouse,

The MCASF Local 725 Pension Plan requires periodic certification of each participant's retirement status for the previous 12 months.

It is important that you send in your statement as soon as possible to prevent any delay in receiving future benefit payments.

Though the Pension Plan rules require the Board of Trustees obtain periodic certification of each participant's retirement status, the Pension Verification Statement also assist the Benefit Office to ensure that they have the correct address for you, so that you will receive all important information regarding the Pension Fund as well as your tax documentation (Form 1099R) which you need when filing your annual 1040 tax form.

If pensioner resides in a hospital or Nursing Home and cannot complete this form by his or herself, please complete the form and return with a copy of a Power of Attorney.

To assist you a return envelope has been enclosed. Please send back this statement within 30 days from the date of this letter.

Thank you for your cooperation with this certification request.

Sincerely,

Retirement Service
MCASF Local 725 Pension Trust Fund

_____, who personally appeared before me, and after being duly sworn upon oath and affirming that this application is true and correct, signed the application before me on this ____ day of _____, 2021.

Signature **Notary Public** **UA Local 725 Rep** (Place Notary stamp in this area)

EXHIBIT A: Jurisdiction

Work of the following description shall be deemed to come within the jurisdiction of the Local Union 725:

1. All piping, setting and hanging of all units and fixtures for air conditioning, cooling, heating, roof cooling, refrigeration, ice making, humidifying, dehumidifying, dehydrating, by any method, and the charging and testing, servicing of all work after completion.
2. The installation and service of all circulating water lines when used for the distribution of heat and heat transfer equipment on ornamental pools, commercial and residential pools and spas, display fountains and aquariums.
3. All piping, handling and setting of equipment in connection with central distributing filtration treatment stations, boosting stations, water treatment, waste and sewage disposal plants, central chlorination and chemical treatment work and all underground supply lines to cooling wells, suction basins, filter basins, settling tanks, aeration basins or tanks and lift stations. (This applies to public work when installed or serviced and would apply to private work after its completion and or under public operation.)
4. The handling, assembling and erecting of all economizers, super heaters, regardless of mode or method of making joints, hangers and erection of same, when used in connection with the pipefitting industry.
5. All internal and external piping on boilers, heaters, tanks and evaporators, water legs, water backs and water grates, boiler compound equipment, etc., when in connection with the pipefitting industry.
6. The setting and erecting of all boiler feeders, water heaters, filters, water softeners, purifiers, condensate equipment, pumps, condensers, coolers and all piping for same when used in connection with the pipefitting industry.
7. The setting and erecting of all underfeed stokers, fuel burners and piping, including gas, oil, power fuel, hot and cold air piping and all accessories and parts of burners and stokers, etc., when used in connection with the pipefitting industry.
8. Make-up water supply from main to equipment installed by Pipefitters.
9. All meters for measuring a volume of any substance, when used in connection with the pipefitting industry.
10. The setting and hanging of all units or fixtures for ice making when unit must be assembled before operation. (Shipping bolts, grids and other parts are to be removed or put in place.)
11. All solar systems, piping and collectors of every description when used in connection with the pipefitting industry.
12. The installation and service of hydraulic or pneumatic door openers when in connection with industrial, manufacturing and commercial applications. Airports included.
13. All gas piping from the main to the meter. All distribution lines.
14. The assembling, erecting, handling and setting of tanks used in connection with the pipefitting industry.
15. The setting, erecting and piping for all smoke consuming and smoke washing and regulating devices, when used in connection with the pipefitting industry.
16. The setting, erecting and piping of instruments, measuring devices, thermostatic controls, gauge boards and other controls used in connection with power, heating, refrigeration, air conditioning, manufacturing, mining and industrial work.
17. The setting and erection of all oil heaters, oil coolers, storage and distribution tanks, transfer pumps and mixing devices and piping thereto, when used in connection with the pipefitting industry.
18. Installation of drain lines from equipment installed by Pipefitters where drain lines drop to a safe waste, floor drain, roof, or any open fixture and where drain lines are not directly connected to a sanitary system.
19. Recovery condensate systems in their entirety.
20. The setting, erecting and piping of all cooling units, pumps, reclaiming systems and appurtenances in connection with transformer and piping to switches of every description.
21. The installation and service of vacuum cleaning equipment and piping when used in connection with manufacturing plants, maintenance facilities, airport terminals, post offices, etc.
22. The installation and service of vacuum systems when used in connection with manufacturing plants, maintenance facilities, airport terminals, post offices, etc.
23. The installation and service of oxygen systems when used in connection with manufacturing, commercial & industrial application.
24. All sheet lead lining for tanks or vats for all purpose, when in the category of industrial work.
25. All piping for railing work and racks of every description, whether screwed or welded when assigned by the Contractor.
26. All power plant piping of every description, as it applies to the pipefitting industry.
27. The unloading, handling and setting of all sterilizers, laundry and cleaning equipment will be done by composite crew. Steam and oil lines will be done by Local #725.
28. Laying out, cutting, bending and fabricating of all pipe work of every description by whatever mode or method, when used in connection with the pipefitting industry.
29. All acetylene and arc welding, brazing, lead burning, soldered and wiped joints, caulked joints, expanded joints, rolled joints or any other mode or method of making joints used in connection with the pipefitting industry.
30. The laying out and cutting of all holes, chases and channels, the setting and erection of bolts, inserts, stands, brackets, supports, sleeves, thimbles, hangers, conduit and boxes, used in connection with the pipefitting industry. Hangers, supports, brackets requiring off site fabrication may be purchased from miscellaneous metal or structural steel fabricators.
31. The handling and using of all tools and equipment that may be necessary for the erection and installation of all work and materials used in connection with the pipefitting industry.
32. The operation, maintenance, repairing, servicing, test and balance, and dismantling of all work installed by Journeymen members of U.A. Local Union #725.

EXHIBIT A: Jurisdiction, continued

33. All soot blowers and soot collecting piping systems, when used in, connection with the pipefitting industry.
 34. All piping for artificial gases, natural gases, holders and equipment for same, chemicals, minerals and byproducts and refining of same, when used in connection with the pipefitting industry.
 35. All ash collecting and conveyor piping systems, including all air washing and dust collecting piping and equipment, accessories and appurtenances and regulating devices, etc., when used in connection with the pipefitting industry.
 36. All pneumatic transit tube work and all piping for carrying systems by vacuum.
 37. All process piping and equipment for refining, manufacturing, and industrial purposes.
 38. The installation and service of all piping systems and equipment with grease pressure lubricating and hydraulic lifts in connection with industrial manufacturing, commercial and maintenance facilities applications (excluding schools). Service station installations optional pertaining to grease pressure and hydraulic lift installations until assigned.
 39. The installation of all related piping, fuel storage tanks and exhaust piping for emergency generators, manufacturing plants, airports, post offices and industrial applications.
 40. The installation and service of all air piping and related equipment in connection with manufacturing plants, industrial, airports, post offices, etc.
 41. The installation and service of all fuel oil, gasoline and cleaning solvent piping and related equipment in connection with manufacturing plants, industrial, airports, post offices. Maintenance facilities and service stations optional until assigned.
 42. The installation and service of all oxygen and acetylene piping systems and related equipment in connection with manufacturing plants or remote distribution systems and industrial applications. Maintenance facilities and service stations optional until assigned.
 43. The setting, erecting and piping of all cooling towers and evaporative condensers.
 44. All work related to the removal and replacement of CFC Refrigerants as mandated by the federal, state and local laws.
 45. All work done in our industry to comply with any environmental rules or regulations as set forth by federal, state, or local governments.
 46. Equipment used on building and construction work in conjunction with the work of the trade, as a time and labor saving device, shall be operated by qualified Employees covered by this Agreement.
 47. The operation of pumps, air compressors and welding machines when used in conjunction with work covered by this Agreement, shall be done by Employees covered by this Agreement.
 48. The testing and balancing of all piping systems or component parts thereof and solar systems, shall be done by Employees covered by this Agreement.
 49. Temporary mechanical equipment and air conditioning systems shall be installed and serviced by Employees covered by this Agreement.
 50. The Employer shall procure and embrace, in all job contracts, all of the work embodied in the unloading and handling, from curbside delivery, all equipment (including cooling towers), materials, the erection, installation of all tubing and piping, the setting and hanging of all units and fixtures which are included and necessary to make and complete an air conditioning, refrigeration, heating, piping installation, and solar installation, including the charging, testing, air and water balancing, servicing and maintenance of same and warranty of same.
 51. All pipe and appurtenances may, at the option of the Employer, be fabricated on the job or in a shop within the territorial areas defined in this Agreement by Employee members of U.A. Local Union #725 receiving the Building Trades rate of pay and working under conditions set forth in this Agreement. It is agreed that nothing in this Exhibit shall be construed as taking precedence over violating this paragraph.
